G. CONTRIBUTIONS TO NATIONAL AND INTERNATIONAL LIFE

1. Within the University: I led the Geophysical consultancy team that carried out the hydrogeological investigation of groundwater situation/ borehole drilling in all the campuses of the University. I was also in a team that carried out the foundation investigation of the PDS building in Mini campus and the Central Administration building in the main campus. I also led the Geophysical consultancy team that carried out the foundation investigation for new Faculty of Science complex at Main campus and College of Agricultural Sciences new complex at Ayetoro in the year 2014.

2. Outside the University: I was the team leader that carried out the Hydrogeophysical investigation for borehole drilling at temporary site of Ajayi Crowther University, Oyo in 2010. I also carried out geophysical investigation for borehole drilling at McPherson University, Ogunmakin in 2013. I had personally carried out several consultancy services for borehole drilling and quarry sites investigation within the State and outside. Many of the students I have supervised are doing very well in Oil and Gas industry and other allied companies.
